

Goals of Care Post Session Self Assessment

Thank you for participating in the Connecticut Older Adult Collaborative for Health (COACH) program. By submitting the answers to these questions you imply consent for your participation in the educational study of the impact of training on healthcare providers. There are no risks to your participation and outcomes will be reported in aggregate. No individual identifiers will be reported. Your honest participation is critical to the success of the program and the overall goal of improving healthcare for geriatrics patients (patients over 65 years of age).
